

CABINET FITTING PDU

- Interface compatibility with different type of output sockets.
- Optional 10A, 16A and industrial couplings, & other specifications for the plug. Rackable installation of international standards; easy installation in standard 19-inch cabinets / racks. Occupies 1U of rack space only.
- Multiple circuit protection, lightning and surge protection, electricity impact resistance 20KA or higher, voltage limit 500V or less, overload protection. Current LED digital display and alarm functions with current monitoring of the entire process of filtering.
- ON/OFF switch protection to prevent accident.

Input connector type

Plug style IEC60329
Parameter 16/32A 250VAC

Plug style IEC320 C14(C20)
Parameter 10(16A) 250VAC

Plug style Bs1363
Parameter 13A 250VAC

Plug style AS/NZS 3112
Parameter 10/15A 250VAC

Plug style DIN49441
Parameter 16A 250VAC

Plug style NEMA 5-15P
Parameter 15A 125VAC
